NOAQ BW52 - CO₂ Emission in production

NOAQ does not have an exact value for our specific production but can provide an estimate based on supplier data. Our supplier has provided the following average emissions data for plastic production at their facility in Sweden, where NOAQ BW52 is manufactured:

- **Estimated CO₂e per kg of produced plastic:**
 $0.244 / 6 = \mathbf{0.04 \text{ kg CO}_2\text{e per kg of plastic}}$ (excluding transportation)
